Experience

whshoofprint

The Hoofprint is a nationally award-winning news magazine based in Walnut, California. I worked on programs such as Adobe **Photoshop**, **Indesign** and **Illustrator**. Skills I learned include: editorial design, photo packaging and editing, vector art/illustrations, infographic design and banner design.

Bruin Adteam

Bruin Adteam is a marketing team that competes in the annual National Student Advertising Competition (NSAC). I'm on the design subteam and make both print and **digital advertisements** (including banners, billboards and pop-up ads).

Creative Labs

I was on the motion graphics team for Creative Labs and created various short animated clips/gifs using Adobe After Effects and Illustrator. I believe motion graphics have a place in digital marketing in that it makes advertisements dynamic and eye-catching.

Skills

Technical skills

Skills with various Adobe products include: cutouts, page layouts, illustrations, animation, vector art, photo editing, infographics and typographic sense. I also have experience in web development (**HTML**, **CSS**, **Javascript**).

Qualities

I am detail-oriented, progressive with ideas, a team player and open to critique and communication. It is important to keep an open line of communication between levels of any organization. I am able to take critiques, make edits and discuss ideas in a clear and efficient manner. I set expectations for myself to be proactive, early (especially with deadlines) and communicative with others at every step of the process.
